I consent to this information being given to my healthcare provider to update applicable records. Yes
No

This form confirms that you have given your consent to have an influenza vaccination.

If any of the following apply to you then please advise your healthcare professional:

- I am currently unwell with a high fever
- I have had a previous severe response to an influenza vaccination
- I have a history of a bleeding disorder
- I have a severe allergy to eggs and / or any chicken products
- I have a severe allergy to gentamicin

Possible responses to influenza vaccination:

Influenza vaccination is usually well tolerated. Possible responses include redness, tenderness or hardness at the injection site for a day or two; a mild fever, muscle aches or headache within the first two days. Rarely, an allergic response can occur.

You should remain under observation to watch for an allergic response for 20 minutes after your vaccination.

The influenza vaccine does not protect against other respiratory viruses such as the common cold. For more information on the influenza vaccine please refer to the Consumer Medicine Information located at www.medsafe.govt.nz

The Ministry of Health keeps a record of influenza vaccination on the National Immunisation Register so that authorised health professionals can find out what vaccinations have been given. It helps to monitor the population's protection against influenza. If you do not want your vaccination recorded on the National Immunisation Register please advise your doctor, nurse or healthcare professional.

I have read or have had explained to me information about influenza vaccination, and I have had a chance to ask questions that were answered to my satisfaction. I believe I understand the benefits and risks of influenza vaccination. I understand getting the vaccination is my choice. I agree to get the vaccination and that it is recommended that I wait here for 20 minutes after my vaccination.

Signed: _____ Date: _____

Signed/Guardian (if applicable): _____

Relationship to the child/patient: _____

Vaccination record (for Clinic Use Only)

Vaccine: _____ Administered: Left / Right Arm
